Software Engineer

Software Engineer and Computer Science undergraduate with strong experience in Python, JavaScript, Django, Laravel, and Flutter. Skilled in building full-stack web applications(Django, Laravel), mobile apps(Flutter), REST APIs, and Agentic AI systems. Python Essentials (Cisco) with a strong foundation in software engineering principles and AI-driven automation.

Education

COMSATS University Islamabad, BS in Computer Science 2023 – Present

- CGPA: 2.6 / 4.00 | 6th Semester
- **Coursework**: Artificial Intelligence, Data Structures, Database Systems, Software Engineering, Web Development

Certifications

AI Fundamentals Certification – IBM

Machine Learning & Deep Learning

Learned supervised and unsupervised learning, model evaluation, feature engineering, and neural network architectures using Python.

Deep Learning & NLP

● Studied CNNs, RNNs, LSTMs, Transformers, and implemented Natural Language Processing tasks including text classification, tokenization, and sentiment analysis.

Python Essentials – Cisco Networking Academy
Core Python programming, OOP concepts, data structures, and problem-solving.

Skills and Technologies

Programming Languages: Python, JavaScript, Dart, PHP, C++, Java
Frontend: Reactjs, ShadCN UI, Tailwindcs, HTML, CSS, Bootstrap, JavaScript, Flutter
Backend: Django, Node.js, Express.js, Laravel, RESTful APIs, Websockets
Databases: MySQL, PostgreSQL, SQL Server, Firebase
Software Engineering: Agile,SDLC,OOP
AI & Automation: Agentic AI, LLMs, Prompt Engineering, AI Workflows
Tools: Git, GitHub, Firebase, Postman, VS Code, mongoose

Projects

E-Commerce Web Application (Django)

- Developed a full-featured e-commerce platform using Django and Django REST Framework.
- Implemented secure user authentication and authorization, including role-based access control (RBAC).
- Implemented order tracking with real-time status updates for users and admins.
- Optimized database queries using Django ORM techniques to improve performance and scalability.
- Developed RESTful APIs for frontend integration and third-party services.

Real-Time Chat Application (Flutter)

- Developed a cross-platform chat application using Flutter and Firebase.
- Implemented real-time messaging, authentication, timestamps, and responsive UI.

Soft Skills

Problem Solving | Team Collaboration | Time Management | Adaptability | Communication
